GUEST SAFETY & SECURITY

CODE MAROON
Code maroon is an emergency notification service. We strongly encourage you to enroll at codemaroon.tamu.edu.

PHONES
There are 115 blue light emergency phones located throughout the Texas A&M campus. These phones are distinguished by the 12-foot poles with the blue light on top and “Police Help” written on the front and sides. In an emergency, simply open the door and press the red button. For locations and other safety support information visit u.tamu.edu/safetysupport. Apartments & Residence Halls have public access phones located in hallways and building entrances.

FIRE ALARM
If a fire alarm sounds, you should quickly put on appropriate clothing and shoes, walk quickly and orderly through the closest exit and continue at least 100 feet from the Residence Hall. DO NOT re-enter the building until you are told to do so by a Residence Hall staff member.

SEVERE WEATHER
Lightning Prediction System: In the event of dangerous conditions, the system will give one long horn blast (approximately 15 seconds) accompanied by a flashing light. Once the dangerous conditions have passed, three (3) short horn blasts, approximately five (5) seconds each, will sound that all is clear and the flashing lights turn off. If a tornado WARNING or severe storm warning is issued, you should immediately move into the hallways, interior stairwells, bathrooms, or closets of the lowest floor. If you are unable to move to a small interior place of shelter, get under a sturdy piece of furniture.
